sm	step mother
---	if name is not given or is illegible

Rural Route Hicksville, Ohio --- living Indiana. Postal Route often crossed State Lines.

Errors are copied as given, often family names have vaiations of the original name.

If bride has been previously married and her previous husband's family name is given, it follows the number of marriages.

These records are in the Circuit Court's Application & Marriage Books of DeKalb Co., Indiana. They were copied with the co-operation of Renata Ford, Clerk of the Circuit Court. The staff were most helpful, especially Barbara Haynes.

The Eckhart Library of Auburn, Indiana is making copies available to the Health Department and the Circuit Court of DeKalb County. I'm most grateful to Janelle Graber, Librarian and to Lina Zerkle for their co-operation in this project.

application only 3 September 1927

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be carefully documented to ensure the integrity of the financial data. This includes recording dates, amounts, and the nature of the transactions.

Secondly, the document outlines the procedures for reconciling accounts. It states that accounts should be reconciled at the end of each month to identify any discrepancies. This process involves comparing the company's records with bank statements and other external sources to ensure that all transactions have been properly recorded.

Thirdly, the document addresses the issue of budgeting. It suggests that a detailed budget should be prepared at the beginning of each fiscal year. This budget should serve as a guide for all financial decisions throughout the year, helping to control costs and ensure that the organization remains on track to meet its financial goals.

Finally, the document discusses the importance of regular financial reporting. It states that management should receive regular reports on the company's financial performance. These reports should provide a clear and concise summary of the company's financial position, including income, expenses, and cash flow.
